

COLD DRAWN STEEL RFQ CHECKLIST

Round, flat, square, hexagonal and drawing-based custom solid profiles

Complete the fields that apply and attach the latest drawing revision.

1 BUYER AND APPLICATION

Company

Contact name and email

Destination country and port

Final component / application

2 MATERIAL AND PRODUCT FORM

Section ☐ Round ☐ Flat ☐ Square ☐ Hexagonal ☐ Custom profile

Ordered steel grade

Governing standard and supply condition

Drawing number and revision

Sample / existing part reference

3 DIMENSIONS AND QUALITY REQUIREMENTS

Finished section size

Critical tolerance

Bar / cut length

Straightness / twist

Corner radius / edge condition

Surface condition

Heat treatment / hardness requirement

Secondary work: cut, drill, punch, coat, plate

4 QUANTITY, INSPECTION AND DELIVERY

Trial quantity

Batch order quantity

Estimated annual demand

MTC / inspection / first-article requirements

Packing, Incoterm and required delivery date

QUOTE-READY MINIMUM

A useful RFQ includes at least the five items below. A product name or photo alone is not enough.

☐ Grade / standard ☐ Section / size ☐ Quantity ☐ Destination ☐ Application

Do not approve an equivalent grade without the buyer's governing standard and written engineering acceptance.
